

II National Pain Symposium
Addressing Challenges and Innovations in Lifespan Pain Management
Preliminary Program

October 7th, 2024(Monday)

07h30-08h30	Meeting registration
08h30-8h40	Welcome
08h40-10h10	<p>Session I: New Approaches in the Study and Management of Pain Chair: Susan D. Brain (King's College London, UK) & Nara Lins Meira Quintão (Univali)</p> <p>Keynote Lectures</p> <ul style="list-style-type: none"> ● 8h40-9h25 <i>Early Life Microbiota Colonization Programs Pain Sensitivity</i> Christophe Altier (University of Calgary, Canada) ● 9h25-10h55 <i>PPAR-γ as Target to Manage Chronic Pain</i> Nara L. M. Quintão (Univali) <p>10h55-10h10 <i>Oral Communication</i></p>
10h10-10h25	Coffee-break
10h25-12h10	<p>Session II: New Approaches in the Study and Management of Pain Chair: Stuart Bevan (King's College London, UK)</p> <p>Keynote Lectures</p> <ul style="list-style-type: none"> ● 10h25-1h00 <i>Unraveling the Mechanisms Behind Sensory Alterations in CHIKV infection</i> Robson da Costa (UFRJ) ● 11h00-11h35 <i>Pronociceptive Role of Spinal Cav2.3 (R-type) Calcium Channels in Postoperative Pain</i> Juliano Ferreira (UFSC) ● 11h35-12h00 <i>Oral Communication</i>
12h00-13h30	Lunch
13h30-15h00	<p>Roundtable 1: How Culture, Ethnicity, and Socioeconomic Factors Influence Pain Perception and Treatment Assess Chair: Elizabeth Soares Fernandes (FPP) & Maria Martha Campos (PUC-RS)</p> <ul style="list-style-type: none"> ● <i>Access to Care: Treating Pain Across Cultural Divides</i> Kaitlin Roberson (Cacti Therapeutics, USA) ● <i>To be announced</i> João Batista Garcia (UFMA) ● <i>Sex/Gender Biases in Pain Research and Clinical Practice.</i> Jamir João Sarda Junior (Univali)
15h00-15h20	Coffee-break
15h20-17h00	<p>Session III: New Approaches in the Study and Management of Pain Chair: Stuart Bevan (King's College London, UK) & José Roberto Santin (Univali)</p> <p>Keynote Lectures</p> <ul style="list-style-type: none"> ● 15h20-16h00 <i>Effects of Phytocannabinoids on Pain and Inflammation in Human and Veterinary Patients: Results From Two Brazilian Randomized Clinical Trials</i> Francisney Pinto do Nascimento (Unila) ● 16h00-16h40 <i>Psychodelics for Treating Chronic Pain</i> Kaitlin Roberson (Cacti Therapeutics, USA) ● 16h40-17h00 <i>Oral Communication</i>
19h00	Opening session 56th Brazilian Congress of Pharmacology and Experimental Therapeutics
19h30-20h30	Opening Lecture 56th Brazilian Congress of Pharmacology and Experimental Therapeutics

October 8th, 2024(Tuesday)

09h00-10h00	Session IV: New Approaches in the study and management of pain Chair: Vinícius de Maria Gadotti (Univali) & Soraia K. P. Costa (USP-SP) Keynote Lectures <ul style="list-style-type: none">● 9h00-9h30 <i>Transfer of Sensory Abnormalities from Patients to Mice.</i> David Andersson (Kings College, UK)● 9h30-10h00 <i>Cannabis and the Endocannabinoid System in the Control of Arthritis Pain.</i> Jason McDougall (Dalhousie University, Canada)
10h00-10h20	Coffee-break
10h20-12h00	Roundtable 2: Challenges in Managing Pain in Youngest and the Elderly Chair: Vinícius de Maria Gadotti (Univali) <ul style="list-style-type: none">● <i>Pain management in the paediatrics: focus on the pain associated to movement disorders.</i> Leonardo Almeida Frizon (FPP)● <i>Inflammatory Pathways in Chronic Pain: Evidence from Pre-Clinical and Clinical Studies.</i> Maria Martha Campos (PUC-RS)
12h20-13h40	Lunch
16h00-17h30	E-Poster Session 1 56 th Brazilian Congress of Pharmacology and Experimental Therapeutics
October 9th, 2024(Wednesday)	
16h00-17h30	E-Poster Session 2 56 th Brazilian Congress of Pharmacology and Experimental Therapeutics
October 10th, 2024(Thursday)	
09h00-10h30	Posters session 3 56 th Brazilian Congress of Pharmacology and Experimental Therapeutics
